

January 2017

To our customers

Ecomone Division  
Fuji Flavor Co., Ltd.

## Changes in Product Specifications

We wish to inform you of changes in the design of the lure packaging for all products, the color of NEW SERRICO® sex lures, and the design of NEW SERRICO® 100-unit cardboard box. The specifics of these changes are described below.

We ask for your understanding and continued patronage.

Details:

### 1. Changed specifications

#### 1) Design of lure packaging for all products

The name of the target insect is more readily visible

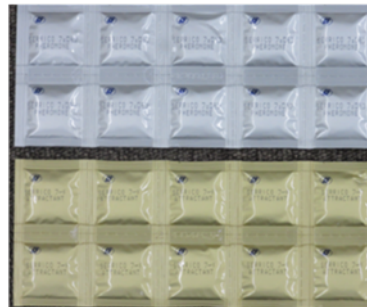

A slit was added making it easier to open

Lure package (rear)

Lure package (rear)

## 2) Color of NEW SERRICO® sex lures

For manufacturing reasons, the sex lures are now colored yellow. (Note carefully that the hue is not an indicator of the remaining pheromone amount.) There are no changes to the food lures.

[Before changes ]

Sex lure: White

Food lure: Off-white (slight yellowish tint)

[After changes]

Sex lure: Yellow

Food lure: Off-white (slight yellow tint)

Note that there may be small color variations, but quality is not affected.

## 3) Design of NEW SERRICO® 100-unit cardboard box

The locking-cover box is being changed to the same regular slotted container as the 200-unit carton.

## 2. Timing of changeover

The changes will be put into effect in mid-January and after.

Please note that there may be a period during which both the new and old colors and designs exist.
